and responsible companies in the world.*

Vision of International Paper

INTEGRATED MANAGEMENT SYSTEM POLICY

PN-EN ISO 9001 • PN-EN ISO 14001 • PN-EN ISO 50001 • PN-ISO 45001

International Paper-Kwidzyn Sp. z o. o. is an integrated pulp and paper mill that produces bleached pulp that is elemental chlorine free (ECF), chemi-thermomechanical pulp (CTMP), uncoated woodfree office and offset printing paper, packaging kraft paper and coated cardboard.

Under the Integrated Management System in operation, our organisation undertakes to meet the applicable legal requirements and other requirements which it is obliged to meet in relation to stakeholders with respect to the quality of services and paper products offered, environmental aspects arising from its business, efficient consumption and use of energy, and occupational health and safety.

Our products are made of renewable raw materials, and the products of everyday use resulting from them can be easily recycled. The production process of wood-free graphic paper: office and offset paper, which is covered by a European environmental certification system, ECOLABEL, is carried out in full compliance with all ECOLABEL criteria established by the decision of the European Commission (EU).

The strategy relating to quality, environmental protection, energy efficiency and HS aspects has been formulated in the priorities and specific production objectives of the International Paper corporation and is implemented through:

- limiting negative impact on the natural environment and spreading positive pro-environmental behaviour among employees;
- rational use of raw materials, auxiliary materials and efficient energy management;
- using modern technologies and the latest technical and organisational solutions;
- considering the improvement of the energy result at the stage of project activities;
- promoting energy-efficient products and services in the procurement process that affect the energy result;
- continuous monitoring of production processes and their impact on the environment;
- continuous monitoring of the quality of products delivered to our customers;
- taking action to improve product quality and process efficiency;
- satisfying the needs of clients and meeting their expectations, by ensuring compliance of selected products with the ECOLABEL criteria, i.a.;
- providing our employees with the opportunity to constantly improve their qualifications;
- partnership cooperation with suppliers and service providers in the premises of IP Kwidzyn;
- ensuring safe and hygienic working conditions in order to prevent injuries and work-related health problems;
- eliminating hazards and reducing the associated risks;
- ensuring consultation and participation of employees and their representatives in activities related to HS.

Our main objective is to demonstrate continuous improvement of the energy result and minimising the negative impact on the natural environment, resulting in lower level of pollutant emission into the aquatic environment and air, and minimized amount of waste generated.

The Company's Management Board, aware of its role in ensuring the effectiveness of the efforts to improve the Integrated Management System, undertakes to constantly provide resources and information necessary to achieve the intended quality, environmental and energy results, and to provide safe and hygienic working conditions to prevent work-related injuries and health problems.

Every employee of our mill is responsible for implementation of the above Policy of International Paper-Kwidzyn Sp. z o.o.

Kwidzyn on 31.03.2020 r.
